

# Talking Tunes

## Top Tips for Singing Together

- Find **toys or everyday objects** that you can use as props in your songs.
- Being **face-to-face** with each other, can help you see each and enjoy the songs together.
- Singing the songs **slowly** will help your child to hear and learn new words.
- Try to **pause and wait** to let your child have a turn and join in (e.g., 'The wheels on the bus go.....')
- **Make up your own song** or use any tune your child likes.
- Try singing about **whatever you are both doing together**.
- Your child will **love to hear you sing** throughout the day in **whatever language** is best for you.
