

## Speech and Language Therapy

# Sound Bags

- The aim of using sound bags is for your child to hear lots of examples of the correct sound during a play activity.

- Sound bags are suitable for older children – 3-5 years to raise their awareness of sounds.
- Fill a bag with items starting with a “special sound” e.g. ‘T’ – (toys, table, teddy, tv, tiger). Take it in turns to pull an object, then model the word and wait. You can also play with the items and repeat the words for your child.

- Although this is a listening activity your child may try and copy you and still say the sounds incorrectly. If this happens don't ask them to repeat the words but praise them for having a go and say the word back clearly to them again.
- Be careful not to use objects that start with tricky blends like ‘tr’, ‘sp’, ‘kl’, ‘fl’ etc.
