Patient guide

What is the Dermatology Service?

The Dermatology Service diagnoses skin conditions and offers support, education and treatment planning for people with chronic skin diseases.

The service treats patients across all areas of Bristol, North Somerset and South Gloucestershire and is available from a number of different clinics.

Who will I see at my appointment?

You will receive an appointment letter that will tell you which clinic you should attend and who you will be seeing at your appointment.

The Dermatology Team is made up of GPs with Extended

Role (GPwER) in dermatology, who are able to diagnose skin conditions and perform some forms of skin surgery, and trained dermatology nurses who run clinics for patients for diagnosed

skin conditions like eczema, psoriasis and actinic keratosis. During these clinics our nurses can plan care and treatment regimes with you, as well as provide emotional support when you need it.

Our nursing team can visit you at home if you are housebound. separate information will be provided if this is appropriate

How long will my appointment be?

Your first appointment will be with either a GP for 20 minutes or with one of the nurses for 60 minutes. Some patients only need one appointment but if you do need a second appointment it will be with a GP for 10 minutes or with one of the nurses for 30 minutes.

What will happen at my appointment?

At your first appointment you will be asked some questions about your symptoms and condition. With your permission, the GP or nurse will examine the affected areas of your body. For this you will

be asked to remove some of your clothing. It would be helpful if you could attend the clinic in loose clothing that is easy for you to take off.

The GP or nurse will then explain their findings and diagnosis. If necessary, they will also explain your treatment options and what will happen next.

Repeated prescriptions felt to be appropriate following your consultation will be requested via your own GP. You will need to request these directly from your own GP surgery when needed.

Please can you bring with you any medication you are taking and any treatments you are using, or have previously used on your skin.

Where we work

The Dermatology Service can be accessed from the areas below.

Your appointment letter will include a map and directions to the clinic you are attending.
